NUMBER 17.

IT WENT CONTRARY.

Senate Proceedings Not What They Were Expected to Be.

NOT A POLITICAL DEBATE.

Instead of Senator Hill's Federal Election Bill Being Brought Up the Hawaiian Question Occupied Nearly the Entire Time of the Senate—Nothing of Importance Occurred in the House.

WASHINGTON, Dec. 12.—In the senate the unexpected happened and the expected failed to materialize. The expected political debate on the federal elections law repeal was averted by Mr. Hill of New York acquiescing to the suggestion of Mr. Hoar that the bill should be referred to the committee on privileges and elections.

On the other hand no one expected a debate on the Hawaiian question until the resolution calling for information agreed to by the senate last week had been complied with by the executive. Mr. Hoar, however, submitted another resolution calling upon the president for specific answers to questions, which, if literally complied with, would lay before the senate and the country the history of the actions of the present administration on the Hawaiian matter. After a lively debate between the author of the resolution and Mr. Gray of Delaware, the resolution went over.

The house joint resolution for the protection of those parties who have heretofore been allowed to make entries for lands within the former Mille Lac Indian reservation in Minnesota, was reported favorably from the committee on public lands and passed.

Mr. Hoar—Rep., Mass.—offered the following resolution attacking by implication the president's Hawaiian policy: "That the president be requested to inform the senate, if, in his opinion, it be not inconsistent with the public interest whether any persons whose name has not been submitted to the senate for its advice and consent, and if so what person has been appointed since the fourth day of March, 1893, to represent the United States in the Hawaiian Islands and if such person has been accredited to the president of the executive and advisory council of the Hawaiian Islands, and whether such person had presented to the head of the government of the Hawaiian Islands and whether any, and if so, what authority has been given to such person touching the relations of this government to the then existing or other government of the Hawaiian Islands and the protection of American citizens therein, and whether any discretion or power has been committed to such person to determine when the naval force of the United States should be landed therein or withdrawn therefrom; and whether any authority has been committed to such person to use physical force in the territory of said government or to land an armed force there; and whether such person has been authorized to or has in fact, corresponded in regard to the public affairs of the government of the Hawaiian Islands with any private person, newspaper or any other periodical, or has been authorized to or has in fact, undertaken to receive in said Hawaiian Islands the testimony of any private person or has requested or received written communications from any private person in regard to the lawful and existing government there, or the circumstances under which said existing government was established or any other matters relating to the public affairs thereof and if any such appointment or authority has been made or given, further to inform the senate whether the same was made or given at a time when the senate was in session or has continued in force during any session of the senate or of congress, or any part thereof; and further whether such appointment or authority was communicated to the senate during any session thereof; and further whether any person has accepted or undertaken to accept the office of commissioner or public minister with the powers aforesaid or any of them, or has undertaken in any correspondence with the government of Hawaii or with any private person to describe himself as commissioner of the United States."

Mr. Hoar commented upon the fact that the information communicated by the president to certain senators under the seal of confidence had been freely given out to the representatives of four newspapers, known to be zealous thorough-going—he had almost said unscrupulous—supporters of the administration.

If that allegation was true, said Mr. Hoar, it seemed to him as gross a violation of the constitution of the United States as was ever charged upon or imputed to any public official. It was not necessary to say to the senate or to the administration people that an attempt to usurp the power of appointing or commissioning such an officer without the consent of the senate, was an attempt to usurp all the diplomatic relations of the government.

Mr. Hoar read the Associated Press cablegram from London in which Minister Bayard expressed his opinion on the Hawaiian question. He said that if that dispatch were true it was also true that Great Britain had been taken into a conference which the administration, senate and the American people had not shared.

If it were true that the president, the senate being in session, had authorized an officer to exercise paramount diplomatic authority in another country with which the United States was at peace, directed the consul and the resident minister to promote his success by every means in his power, placed in the archives, under his complete and untrammelled control, authorized him to employ at his discretion the naval power and to land or withdraw the forces of the

United States at will, and had given him the title which was enumerated as one of the titles of the diplomatic officers in the act of congress, the president was standing—in Mr. Hoar's judgment—upon very slippery ground, and he had better step onto terra firma rapidly and at once.

"If, in the next place, such an official entered that territory and established correspondence with private persons about its public affairs, taking testimony, written communications, receiving written communications and making replies thereto, that officer violated in a most gross and palpable manner the express written law of the American people; and if he reported that action to the president and it was approved and the president made himself an accomplice after the fact, in that violation of law he, the president, was standing upon not only slippery but very thin ground, especially if after that act of this public commissioner he proceeded to decorate him with a new diplomatic appointment.

"The ostrich," said Mr. Hoar, "puts its head in the sand and thinks he will not be seen. The rhinoceros hides in his mud puddle and breathes through his nose and thinks he will not be seen. But neither of these are fit and suitable precedents for the executive of the United States. The people have a right to know, wish to know and will know—let me say to my honorable friend, the truth of this matter."

Mr. Gray—Dem., Del.—said he did not intend to be drawn into a discussion of the Hawaiian matter even if the senator from Massachusetts could not restrain himself from an indulgence in his habit of scolding an administration belonging to a party the opposite of his own. He said Mr. Hoar had scolded all through Mr. Cleveland's first administration and had scolded him back into the White House. He did not think the senator from Massachusetts would gain anything from the sober, second thought of the American people by putting up hypothetical cases in regard to which he was to deliver himself of the well combed vituperative phrases with which he had entertained the senate during the morning. Nor did he think that our honored representative at the court of St. James would take much detriment by his share of the scolding.

Mr. Gray said he thought it would have been better taste all around if the senator from Massachusetts had waited until the official information asked for a few days ago had come to the senate. He wanted to know whether the statements that the senator from Massachusetts had alluded to with the public press had been full for weeks past, were indeed true; whether it was a fact that the flag of the United States had been disgraced and dishonored by a superserviceable agent of this government and made to symbolize an act of piracy and aggression for which every honorable American ought to hang his head in shame to use the hypothetical language of the senator from Massachusetts. It was very well for the senator from Massachusetts and others who agreed with him to ask those who disagreed with them again and again to avert their gaze from what was said to have occurred on those islands in the middle of last January. They desired to know something about that.

Mr. Gray thought the resolution should go over for one day under the rule. Mr. Hoar objected to Mr. Gray's giving to his remarks the characterization of scolding.

After some further discussion the resolution went over for one day.

Mr. Hill, in view of the complaint that the minority had had no opportunity to report on the elections bill, moved that it be referred to the committee on privileges and elections.

As Mr. Cullom—Rep., Ills.—desired to submit some remarks on the subject, the senate bill was allowed to remain on the calendar, and the house bill was referred to the committee on privileges and elections.

The senate then, on motion of Mr. Gorman, proceeded to the consideration of executive business, and at 2:40 adjourned.

In the House.

WASHINGTON, Dec. 12.—The session of the house was brief and uninteresting. Several bills of minor importance were passed during the morning hour, and an agreement was reached by which the next two days will be devoted to the consideration of the bill for the admission of the territory of Utah. The bill to review the claims arising out of the captured and abandoned property act aroused the partisan opposition of the Republicans, and notice was served on the Democratic side by Mr. Reed that this bill could only be considered under the stress of a special order from the committee on rules. The remainder of the session, after the expiration of the morning hour, was devoted to District of Columbia matters.

RAILROAD STRIKE.

The Trainmen on the Louisville and Nashville Quit Work.

LOUISVILLE, Dec. 12.—The trainmen on the Louisville and Nashville road between Evansville and Nashville struck last night, on account of the company's doubling up engines on freight trains, thus decreasing the number of trips. This, the men claim, is a reduction of salary, as it causes them to lay off more. The strike affects the freight conductors and brakemen only and is an economical strike on the part of the company.

W. Nabors, who is general chairman of the committee representing the operatives of the Louisville and Nashville railroad now in session here, and also chief of the Brotherhood of Conductors, went to the scene of the trouble last night. Mr. Nabors said before leaving that the affair was a purely local one, and had no bearing whatever on the present conference now being held with the Louisville and Nashville officials in this city, and that it was unauthorized. He also stated that he thought the matter would soon be amicably adjusted.

CHINESE CAPTURED.

A New Way of Smuggling Them to Our Shores.

KEY WEST, Dec. 12.—The first attempt at wholesale smuggling of Chinese had made their appearance at Boca Chica, an island in the Gulf of Mexico, distant about 12 miles from this city, and that they were endeavoring to secure transportation to Key West. The collector of customs organized a posse from among his subordinates, chartered a naphtha launch and proceeded at daylight yesterday morning to a point where the Chinese had been reported.

After cruising among numerous keys in this vicinity they reached Boca Chica and there found 16 Chinese in native costume. They presented a forlorn appearance. While they were surprised at their arrest, they neither offered resistance nor objected to coming to Key West.

No information could be obtained from them, however, as to how they landed or who brought them to Boca Chica, although several speak the English language. From the keeper of the island it was learned that they were landed from a Spanish fishing sloop which had been cruising up and down the gulf all Friday afternoon. It is believed all will be returned to Havana.

Another Steamer from Hawaii.

No Change in the State of Affairs There and the Queen Not Restored.

YOKOHAMA, Dec. 12.—The steamer China, which left San Francisco Nov. 21 and Honolulu on Nov. 28, has just arrived here.

An Associated Press correspondent immediately went on board of her and had interviews with the officers and passengers regarding the situation of affairs in Hawaii. They stated that when the steamer left the island the provisional government was still in power, and was maintaining a very determined attitude.

Much excitement prevailed among business men and the people generally, and the action of the United States government was awaited with the greatest anxiety. The members of the provisional government, however, were resolute in their declarations against the restoration of the monarchy and openly expressed their intention of resisting to the utmost any attempt that President Cleveland might make to reinstate the queen.

Defaulter on Trial.

NOBLESVILLE, Ind., Dec. 12.—The case of the state against James K. Armstrong, ex-treasurer of Tipton county, charged with embezzling \$48,026.70, was called for trial by Judge Stephenson, in the Hamilton circuit court. A jury was impaneled without delay, the defense accepting the jury without a single challenge. A large delegation came down from Tipton. Calvin Armstrong, son of defendant, who is also under indictment, was brought from the Kokomo jail as a witness. The state is represented by J. F. Pike, prosecuting attorney at Tipton county; D. J. McMath, prosecuting attorney of Hamilton county, and George Sharts, while John W. Kern, W. R. Oglesby and others appear for the defense.

Suddenly Dropped Dead.

WHEELING, Dec. 12.—Ex-Governor Jacob Beeson Jackson dropped dead at his home in Parkersburg yesterday afternoon, being the second of West Virginia's ex-governors who have died suddenly within two weeks. Mr. Jackson was the sixth governor of the state, having been elected the first time in 1880 and re-elected in 1884. He was born April 5, 1828, and was admitted to the bar in 1852. He was always an ardent Democrat, and has been one of the most distinguished leaders of that party in this state. He was a brother of United States District Judge Jackson and a cousin of the Confederate general, "Stonewall" Jackson.

More Damaging Evidence.

INDIANAPOLIS, Dec. 12.—The trial of Anna Wagner, charged with the poisoning and murder of the four members of Charles Koesters' family, in yesterday's hearing resulted in the state showing that the young woman purchased poison on the morning of the day the last death in the family occurred, and prepared food for Mrs. Clara Koesters, whose death followed the eating of her dinner. It is expected the trial will continue until the holidays.

Crippled For Life.

LOGANSPORT, Ind., Dec. 12.—James Shinn, for many years one of the leading clothing salesmen of Logansport, had his right leg cut off here by falling under the wheels of a Panhandle train. He was attempting to board the express for Chicago with the intention of spending Sunday there with his wife, when he slipped and fell.

Billiard Contest Begun.

NEW YORK, Dec. 12.—The big three-cornered billiard tournament between Jacob Schaefer, George Slosson and Frank Ives, for a stake of \$1,500 and a one-two-three division of the gate receipts, was auspiciously begun in the concert hall of Madison Square Garden last night.

Out on a Strike.

EVANSVILLE, Ind., Dec. 12.—The switchmen employed by the Louisville and Nashville went out on a strike last night because of the company's refusal to restore the 10 per cent cut in wages. No freight trains are moving.

Life Sentence.

ROCKVILLE, Ind., Dec. 12.—James Johnson, on trial here the last three days for the murder of Leslie Bell at Caseyville, a mining town in the southeast part of this county, May 31, was awarded a life sentence by the jury.

BIG FAILURE.

Aultman & Company, Agricultural Implement Manufacturers of Canton, Assign.

CANTON, O., Dec. 12.—The affairs of C. Aultman & Company passed into the hands of a receiver on application of the president of the company, Lewis Miller of Akron, William A. Lynch and Robert A. Miller were appointed receivers. The company is one of the oldest in the state. It manufactured threshers, engines and agricultural implements and had a paid up capital of \$1,500,000. Collections have been slow and the works shut down owing to stringency and creditors to a large amount precipitated the proceedings.

The company, it is understood, is entirely solvent, as its assets are not far from \$2,700,000, while its liabilities are about \$1,000,000.

The application was made to Judge McCarty and it was granted. Robert A. Miller, one of the receivers, is the general manager of the firm. Both receivers forthwith qualified and were placed in charge. Their bonds were fixed at \$50,000 each. Lewis Miller of Akron, president of the company, is one of the largest stockholders. He is interested to the amount of more than \$250,000 and is besides surety on a number of the company's obligations. He believes that with proper management the company will pay its debts.

Oldest Person in Clark County Dead.

NEW WASHINGTON, Ind., Dec. 12.—Martha McLean, the oldest person in Clark county, is dead. She was 96 years and 7 months old. The deceased was born in Covington, Ky., in 1797. Her father, Daniel Covert, was a soldier of the revolution, a native of New Jersey, and the battle of Monmouth, N. J., was fought on his farm. The Covert family came to this country before the beginning of the century, and were among the best citizens. The deceased was a lifelong member of the church, and at the time of death her mental faculties were but slightly impaired, although she had been blind for several years. Her death was caused by a fall.

Not His Time to Die.

LOVELAND, O., Dec. 12.—William B. Dungan, who shot himself a week ago on account of being refused an interview with Blanch Clark, with whom he was madly in love, and who has not been expected to live, took a turn for the better yesterday and has been rapidly improving since. The hemorrhages have almost subsided, and it is thought by the physicians that he will be able to be out this week. Miss Clark's brother, from Iowa, has arrived. The Frank family have no intention of forcing Dungan to leave their home before he is able, and the very best of care is being accorded him.

Killed in His Own Home.

LAS VEGAS, N. M., Dec. 12.—John Dougherty, ex-sheriff of Mora county, when sitting in his office in Mora reading the papers, with five of his children playing about him Saturday evening, was fired upon through the window and killed. He leaves a widow and 12 children. He was wealthy. The jailer of the county was arrested on suspicion. Bloodhounds were taken over from the penitentiary at Santa Fe to Mora last night to track the assassin. The brother of the murdered man has offered \$2,000 reward for the capture of the murderer.

Shot by Burglars.

LEBANON, O., Dec. 12.—Burglars were discovered by Harry Pullen while packing up the silverware in his father's house and he called for help. The men ran and he followed them out into the yard, where one of them turned and shot him through the head. He was unarmed, and they could have easily escaped, but it is believed they had been recognized by him and murdered him to prevent him exposing them. The county commissioners and village council have offered a reward of \$800 for the capture of the murderers.

Dying From an Assault.

AKRON, O., Dec. 12.—John McFarlin, superintendent of the Akron street railway, was mysteriously assaulted. He was found in his own front yard unconscious and with a fractured skull and a deep cut in his neck. He is still unconscious and can not live the day out. James McFeely and Abe Williams, two well known tough characters, were seen with him early in the evening and are under arrest for being connected with the arrest.

Attempted Jail Delivery.

ATHENS, O., Dec. 12.—An attempt was made by the prisoners in the county jail to cut their way out. As one of the deputy sheriffs was passing around the cells he found a newspaper neatly pasted to the wall. Tearing this down he found a large stone behind it completely cut away, and the work of another hour would have given the men a chance to escape. Several notorious criminals are confined in the jail awaiting trial.

Revenue Collector Ill.

DAYTON, O., Dec. 12.—United States Revenue Collector Joseph H. Dowling is confined to his home here with a very serious cold, and has preliminary symptoms of pneumonia. He has been attending to business against his physician's orders, but the doctor thinks Dowling will pull through all right if kept in the house.

Bought by the Big Four.

NEW YORK, Dec. 12.—It is announced that the Chicago and Eastern Illinois railway has been sold to the Big Four company. The transfer will be made, it is said, on Feb. 1. This gives the Big Four an independent entrance into Chicago.

PHILADELPHIA, Dec. 12.—Full details of the loss of the steel ship Bahama are now received. She was struck by a hurricane on Nov. 15 and wrecked. All hands were saved. The loss is \$130,000.

A TRAIN HELD UP.

An Expresscar Looted of All Its Valuables.

THE PASSENGERS ALL ROBBED.

The Fireman Wounded by a Pistol Ball in the Shoulder—All This Occurred on the International and Great Northern Railroad Near Duval Station, Fifteen Miles From Austin.

AUSTIN, Dec. 12.—The expresscar, looted of all the money and valuables in the safe; every passenger in the coaches robbed of their purses, watches and jewelry, a pistol ball in the shoulder of Fireman Red Corrigan is the record of the holdup and plunder of the north-bound International and Great Northern passenger train at Duval station, 15 miles north of Austin, at midnight.

Corrigan's wound is painful, but not dangerous. The amount of money taken from the expresscar and passenger is not yet accurately known. The gangs' identity is not yet learned, though the trainmen give good descriptions of two of them.

The train passed this city at 11:20 in charge of Conductor Joe Thomas, with Engineer Ed Rutledge and "Red" Corrigan, fireman. Approaching Duval, 15 miles north, Engineer Rutledge discovered the switch open, and promptly brought the train to a standstill. Just as he stopped the train two well armed men with revolvers covered him.

Fireman Corrigan was a little slow and the fellow who had a gun drawn on him fired, making an ugly wound in Corrigan's left shoulder. The firing of this shot was the signal for a regular fusillade from both sides of the train and in front shattering headlight, windows and all. The bandits then attacked the expresscar in charge of Messenger Ruffinger, who was compelled to open the car and the safe. Speedily looting it of all valuables, the two robbers joined their confederates and a raid was made on the passenger coaches, the trainmen being left under guard.

Three men passed through the coaches while those on the outside kept up a constant and rapid fire to intimidate passengers, many of whom when the bandits entered were hiding under the seats. But the robbers made all deliver money, watches and finger rings. One man did the robbing while the others held six-shooters.

Charles Turner, a bus agent, saved his watch and money by throwing it under the stove.

When the second passenger coach was entered, one robber left a package on the coal box, and after the robbery it was discovered to be an express package containing \$800. The robbers did not enter the sleepers. Messenger Ruffinger does not know how much money the express safe contained, but the run was a light one.

After going through the train the robbers got away as quickly as possible in the darkness toward the mountains. The amount of the booty is variously estimated from \$10,000 to \$50,000. It is suspected that the gang is the same that made the big haul at Plano, Tex. Officers have gone in pursuit.

Messenger Ruffinger thinks there were six men in the gang. They all wore masks. It took 30 minutes to complete this job. The bandits were very abusive and seemed to be drunk, cursing and striking passengers at will.

A FORTUNATE SEARCH.

A Quantity of Stolen Goods Uncovered by a Police Raid.

ANDERSON, Ind., Dec. 12.—The arrest of Shelby Clapper and the search of his premises has proven a fortunate one. Clapper is still at Muncie, where he is being held for a robbery at Daleville. When the chief of police and posse went to his home here they found no one about. An entrance, however, was forced, and a wagonload of stolen goods was uncovered. The stuff ranged from dry goods and clothing to carpets and hosiery.

Another search was had and a quantity of potatoes and household goods, with several government mailbags, were uncovered. The household goods and potatoes were identified as having been stolen from Panhandle freighters. The other goods are believed to have been stolen from stores at Daleville, Kennard and other small towns around here.

Clapper's home is believed to have been headquarters for an organized band of thieves. When Shelby made his confession he implicated John Clapper, his brother and another man. They are out of the city, but not beyond the reach of the officers. This band of burglars is believed to be a branch of the organization headed by Dick Goodman, who was recently shot by Deputy Sheriff Coburn while looting a store at Summitville. A number of officers are at work on the case of Clapper, and the arrest of other parties is expected.

Fifteen People Injured.

PARK CITY, U. T., Dec. 12.—A wagon containing 25 people on its way to the cemetery yesterday was capsized and 15 of its occupants injured. John S. Fargo, Stanton Rolley and John Spargo were fatally injured. Rev. W. A. Hooper, a Methodist minister, was injured about the back and Frank Evans, the driver, had two ribs broken. The others were only slightly injured.

Death of an Ex-Congressman.

WASHINGTON, Dec. 12.—Hon. Jeremiah H. Murphy, ex-member of congress from Iowa, died here yesterday from dropsy. He served in the Forty-eighth and Forty-ninth congresses and was well known throughout the country as "Honey" Murphy for his championship of the Hennepin canal project.

WEATHER FORECAST.

Generally fair, with probable showers Tuesday morning; cold wave.

GEORGE A. MACBETH, a lamp chimney manufacturer of Pittsburg, talks like a man of courage, enterprise and American spirit, of the new tariff bill. "There has been too much tariff," he says, "on glassware. If it were taken off altogether it would be a good thing, which other manufacturers cannot see now, but will later. Without a tariff on the finished product the markets of the world would be open to us. We are nothing in our business for foreign competition. Labor saving machinery, skilled workmen and all the natural benefits we possess give the Americans an advantage in manufacturing which no other country possesses." That is the American spirit which wins and conquers, truthfully observes the New York World.

THE NEW CHINESE LEGATION.

The Minister and His Suite Live Royally in Washington Regardless of Expense.

The new legation has taken three houses for which the Chinese government pays \$20,000 a year. They now occupy the old Summer house, which is an annex of the Arlington. The United States paid \$200 a day for the board of the infant while her suite occupied these quarters. Yung Yu is paying \$500 a day and says he thinks it is very cheap. While the women are kept in seclusion, the men have the run of the house and make themselves thoroughly at home. A part of the delegation were once in England and speak the English language fluently. They have the free and easy manner of the westerner and show a disposition to talk to any one who will listen. The minister himself is as dark as a sunburnt mulatto, being at least three shades blacker than the other members of the delegation.

Yung Yu says he is very well pleased with American cooking, but he has taken the precaution to provide himself with a Chinese cook and has installed him in the hotel kitchen. The legation eat but little meat, dining chiefly on vegetables. Yung Yu has never been out of China before. He was not a man of the highest rank in China, but like Ko-Ko, though in a different way, rose to distinction. He was an official in the province of Chin-Keang which corresponds there to the position of collector of the Boston port here. It was strictly on his merits that he was chosen by the prime minister to represent the emperor in this country pending the delicate relations between the two nations in consequence of the Geary act. As long as there are any strained relations existing no member of the legation will be allowed to accept the hospitality of an American, that being the law of the embassy.—Washington Cor. Boston Advertiser.

A CLEVER SWINDLER.

A Frenchman Wearing the Rosette of the Legion of Honor a Sharp Scoundrel.

A really clever thief is engaged just now in robbing people in Paris who possess securities payable to bearer. His plan is to do a little business with some of the Parisian banks in order that he may have an excuse for hanging about the counters. He then watches the bank's customers, especially ladies, and when he sees one of them receive from the clerks any bonds or other scrip to bearer he quietly makes a note of the person's name and the numbers on the documents. Having ascertained the address of his proposed victim, he calls there later in the day or early the next morning, and representing that he is a clerk from the bank, asks for the securities, alleging that there is some little informality in them that has to be rectified. As he is armed with the numbers, in nine cases out of ten the customer gives up the documents quite unsuspectingly.

So far this ingenious swindler has eluded all efforts to detect him. He is described as a gentlemanly looking man, who wears the rosette of an "officer" of the Legion of Honor, the little bit of ribbon of a plain "chevalier" apparently being thought not sufficiently imposing now that such decorations are so plentiful.—London Daily News.

Sir James Crichton Browne, the English expert on brain diseases, asserted in a popular lecture last week that insomnia is not attended with such disastrous consequences as is commonly supposed. It is not as dangerous as the solicitude of the sufferer. He suggested that the brains of literary men, who are the most frequent victims, acquire the trick of the heart, which takes a doze a fraction of a second after each beat and so manages to get six hours' rest in 24. Some brains in cases of insomnia sleep in sections, different brain centers going off duty in turn.

The Old Friend

Telephoning Through Snow.

Professor A. H. Thompson, chief of the United States Geological survey, returned from the Black Hills a few evenings ago. The government has two parties in the hills, one at Rapid City and the other at Deadwood. The professor found the Rapid City party entirely snowbound and tells a tale of how he got communication with them. He worked his way toward the men until he came within speaking distance. By that time further passage seemed to be impracticable, but by accident they had occasion to resort to a peculiar expedient. They talked through the snow. The snow acted as a conductor of sound, and with some difficulty they made one another understand.—Denver Republican.

WILLIAM WILLIAMS.

He Shoots and Dangerously Wounds Bettie Washington, a Colored Woman.

Bettie Washington, colored, was shot and dangerously wounded late last evening by William Williams, who is known also by the nickname of "Bushwhack" Williams. Williams fled immediately after the shooting and has so far eluded arrest. He is about twenty-two years of age and is a son of Mr. Lon Williams, the skiff-builder.

The wound is in the right lung, the ball passing through the lung, and lodging under the right shoulder blade. It has not been removed. Dr. Pangburn, the attending physician, pronounces the wound a very dangerous one, but not necessarily fatal. The woman was resting very well this morning.

The shooting occurred on the C. and O. railroad, near the Sixth ward school.

Williams charged the woman with having communicated to him a loathsome disease. This she denied. The lie was passed, and the shot followed. This is the only reason assigned for the shooting, so far as the BULLETIN has been able to learn.

It is the general impression that Williams is hiding in this city.

Ought to Have Known Better.

Says the Covington Commonwealth: "Albert Barker, of Augusta, was indicted in the U. S. Court for passing counterfeit money. The case is a little peculiar. He was standing in front of Powers & Bradford's store. The clerk, Richard Cox, came out and began flipping a silver dollar up in the air. It fell on the roof. Barker offered to go up and get it for a nickel. Cox told him to let it alone as it was counterfeit. Barker, notwithstanding, sneaked up on the roof in the rear way and got the coin. Later on he passed it off on Cox for a good dollar. He was arrested, and Friday the grand jury indicted him for passing counterfeit money."

Must Pay the Damages.

"The decision of the Federal Court, at Covington, in the case of Theodore F. Hallam vs. the Cincinnati Post for defamation of character, was affirmed in the United States Circuit Court of Appeals at Louisville Saturday, the plaintiff being awarded \$2,500 damages. This was the suit in which the defendant argued that a man with a spotless private character might have a convenient political self of another and an off color. The court ruled, however, that a man's political reputation was as sacred as his private character."

Real Estate Sales.

Mr. H. C. Hawkins, auctioneer, reports the following sales of real estate: The farm of the late Thomas D. Worthington, consisting of 120 acres one mile east of Mayslick, to Mr. James S. Pogue at \$116.15 per acre; two tracts of land belonging to the late Michael Walton, one containing 170 acres on Johnson Creek, to Mr. Ed. Walton at \$43 per acre, and the other containing 85 acres, known as the "John Fields farm," to Mr. Benjamin Smith at \$45 per acre.

Proved Fatal.

A week or so ago, James W. Lewis, aged eleven years, was terribly burned by his clothes catching fire at the home of his parents, Mr. and Mrs. William L. C. Lewis, on West Second street. The little fellow lingered until 7 o'clock this morning, when his sufferings were ended in death.

The funeral will occur sometime Thursday at the residence, services by Rev. D. P. Holt.

Dick Tate Again.

There is no longer any doubt that a move is on foot to secure a pardon for Dick Tate, the defaulter. The petition was seen by a Frankfort newspaper correspondent last Saturday. The correspondent says: "Who started the movement and who is pushing the matter is a profound secret, but a shrewd guesser would locate the center of agitation in Frankfort."

MT. CARMEL'S MYSTERY.

Is Newton Debell Still in the Land of the Living, is Now the Question.

A special from Flemingsburg says: "This community is considerably mystified over the disappearance of Newton Debell, of the Mt. Carmel neighborhood, several weeks ago. Two weeks after his sudden disappearance a body, found in the Ohio river at Maysville, was identified as that of Debell, and interred by his relatives and friends, though some little doubt existed in the minds of a few at the time as to the identity of the corpse."

"Since this time different people, who had not heard of the drowning, claim to have seen Debell and to have talked with him. Friday Jailer Elias Collins went to Anchorage with a lunatic and when he returned that night his wife told him that Newton Debell had been to see him. He told her that she was surely mistaken, that Debell was dead and buried. However, Mrs. Collins still insists that she saw and talked with Newton Debell in the flesh Friday. She was raised in the same community with Debell and has known him all his life.

"There is no known reason for his being in hiding, and those interested are considerably puzzled."

Richardson was fined 1 cent for breach of the peace.

DEATH AT A FIRE.

A Plumber Falls to Make a Gaspipe Connection and Meets His Death.

INDIANAPOLIS, Dec. 12.—Julius J. Smithman was burned and smothered to death at 27 Willow street yesterday afternoon. He lived at 84 Willow street. He was sent to the house, where he met his death, by his employers to make a gaspipe connection. While he was at work in the cellar an explosion occurred. He managed to crawl upstairs and to the front, where the flames that enveloped him were extinguished, but not before his hands and face were so terribly burned that the skin and flesh peeled off when touched.

He had also inhaled the flames and died before medical aid could be summoned.

The fire department was called and succeeded in putting out the fire before much damage was done to the house, the destruction being confined almost altogether to the cellar. Smithman had four children without a mother.

The Lehigh Strike.

TERRE HAUTE, Ind., Dec. 12.—Chief Sargent of the firemen said last night, regarding the probability of the Lehigh strike being renewed: "I have been advised by telegram that the Lehigh company have issued a circular reducing wages. The question of wages cut no figure in the late strike and the matter will probably be reopened. The company is certainly acting queerly, illustrating the methods of such railway officials as have no honesty of purpose. When the strike was settled the state boards of arbitration assured us that the railroad company would do what was right."

Attempted Daylight Robbery.

CHICAGO, Dec. 12.—Three men attempted to rob Samuel Clifford in his West Adams street grocery in broad daylight yesterday, and in the struggle which followed, Clifford, after being fired at by the men shot and killed one of the intruders, the others making their escape. The dead man is said by the police to be Frank King, a notorious criminal.

Epidemic of Measles.

MUNCIE, Ind., Dec. 12.—Selma, a small place east of Muncie, has an epidemic of measles. Not a home has escaped, and over 100 cases have been reported to the county health officers.

Strike Ended.

ASHLAND, Ky., Dec. 12.—The strike here has ended, with the acceptance by the company of the "puddlers' terms of \$4.75. It will give 600 men employment.

Mentally Unbalanced.

LOGANSPORT, Ind., Dec. 12.—Squire Antony F. Smith, a pioneer resident and venerable justice of the peace, has been committed to Long Cliff asylum for treatment. His mind was unbalanced by a long siege of sickness.

Given Ten Years Each.

LIMA, O., Dec. 12.—Scanlan and Westerman, the two men who were found guilty of a revolting crime, were sentenced to 10 years in the penitentiary.

Mysteriously Missing.

TIFFIN, O., Dec. 12.—George Hommer, a liveryman, is mysteriously missing.

"How is it your little baby sister goes to sleep as soon as your father takes her?"

Little Four-year-old—I spec' it's 'cause she'd rather do that than stay awake and hear him sing.—Beau Monde.
